

Vision:

- A justice system that fairly and efficiently serves those impacted and all communities in East Baton Rouge Parish

Mission:

- CJCC Engage is a community-led alliance working to create and maintain space for local input that positively influences decision-making among our city's leaders and criminal justice stakeholders. We aim to uplift and amplify other voices and close disparities in the justice system by advocating for criminal justice reform, promoting educational events, and participating in collective action alongside other fellow organizers and area nonprofits.

Pillars:

- Inclusion, collaboration, and equity
